EDUCATION

Community Institute of Management Studies
Master of Computer Applications
2026 – Present

NRI Institute
Bachelor of Computer Applications
2021 – 2024 | CGPA: 8.02

Pre-University (PCMC)
Physics, Chemistry, Maths, CS
2021

SKILLS

Soft Skills

- Communication & Teamwork
- Problem Solving
- Quick Learner
- Creativity & Innovation

Technical Skills

- Languages: Python, Java, JS, SQL
- Frameworks: Node.js, Flask, JSP
- Frontend: HTML5, CSS3
- Database: MySQL, SQLite
- Tools: GitHub, VS Code

LANGUAGES

- English
- Telugu
- Kannada
- Hindi

PROFILE

Results-driven Full-Stack Developer and MCA finalist (CGPA: 8.71) with hands-on experience building database-driven web applications using Python, JavaScript and with a strong foundation in cloud computing concepts, AWS services. Proven ability to design responsive frontends, architect scalable backends, and deliver production-quality software. Seeking a Software Engineer role to drive impactful engineering solutions.

EXPERIENCE

Web Development Intern - Vinqube Technologies Pvt. Ltd.
Apr 2024 - Jun 2024

- Developed responsive UI components using HTML5, CSS3 & JavaScript, reducing page inconsistencies by ~30% across client-facing modules.

PROJECTS

Interview Scheduling Automation System
Java, JSP, MySQL
https://github.com/karthik18gv-gif/interview-scheduler

- Built a centralized web recruitment platform automating scheduling for 100+ applicants, cutting manual effort by 60%.
- Implemented auto-generated IDs, dynamic slot allocation, and a real-time status dashboard with JSP and MySQL.

Hostel Mitra - Hostel management System
Python, Flask, HTML5, CSS3, SQLite
https://github.com/karthik18gv-gif/Hostel-Mitra

- Developed a smart hostel management system that simplifies student registration, room allocation, fee tracking, leave management, complaints, and hostel communication in a centralized platform.
- Improved hostel administration efficiency by reducing manual paperwork, enhancing communication between students and management, and providing a user-friendly digital experience.

CERTIFICATIONS

- Python in Flask
- Cloud Computing (AWS Services)
- Cyber Security (Basics)

ACHIEVEMENTS

- Participated in Hackathon and Intercollege technical events.
- Attended workshop on Digital Security - E-Mudhra Company.
